

# Way Fast International Co., Ltd.

## 威峯科技股份有限公司

The company's customers span countries such as the United States, Canada, the United Kingdom, France, Germany, Sweden, Poland, the Czech Republic, Spain, Malaysia, and more.

Way Fast has been deeply rooted in Taiwan for 16 years, accumulating a significant customer base in the screws, nuts, and fasteners field. We continue expanding our business activities and hope your factory's participation will create more opportunities.

We consistently uphold quality as our top priority and aim for customer satisfaction. Although the focus is on the customer in this statement, behind the customer's needs and expectations lies the factory. In today's ever-changing market, factories can gain insights through our inquiries. Whether it's international certifications like ISO or IATF, continuous improvement in production processes (such as PPAP), environmental considerations (RoHS), or the exploration of patents and diverse manufacturing processes for various products, each aspect presents an opportunity for the factory to progress. Therefore, we will work with the factory, sharing opinions and new knowledge to strive for improvement.

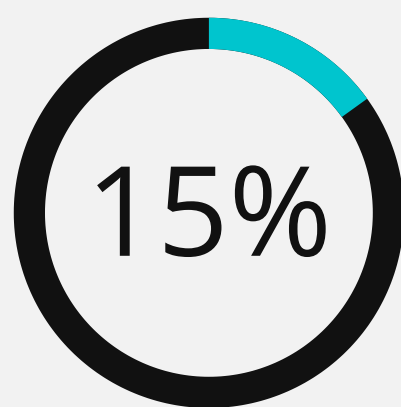

Revealing the Major Customer Inquiries of the Past Five Years
